PROFESSIONAL SUMMARY

Java Backend Developer with 1 year of professional experience, specializing in scalable **REST APIs** and **Microservices** using **Spring Boot**. Proficient in **JWT-based security**, **MySQL** optimization, and clean layered architecture. Adept at building secure, maintainable, and production-grade backend systems with a strong focus on performance and scalability.

TECHNICAL SKILLS

Technical Skills: Java, Spring Boot, Spring MVC, Spring Security, JPA, Hibernate, REST APIs, JDBC, Servlets, JWT

Database: SQL, PostgreSQL, Redis

Tools & DevOps : Git, GitHub, Bitbucket, Docker, Maven, Postman, MySQL Workbench, VS Code, CI/CD

PROFESSIONAL EXPERIENCE

Jr Software Engineer (Java Developer) — DSD Systems Pvt Ltd

Jul 2025 – May 2026

Noida, India

- Developed **scalable REST APIs** using **Java** and **Spring Boot** to support core business workflows.
- Designed and implemented a **Microservices Architecture**, improving scalability and simplifying service maintenance.
- Optimized **MySQL** queries and **indexing**, reducing API response times and improving overall database performance.
- Secured applications with **Spring Security**, implementing **JWT authentication** and **role-based access control (RBAC)**.
- Implemented **Global Exception** handling to ensure consistent API error responses.
- Tested and validated **REST APIs** using **Postman**, maintaining reusable API collections and environment configurations.
- Collaborated using **Git**, **GitHub**, and **Bitbucket** for version control, code reviews, and merge conflict resolution.
- Designed and developed responsive and dynamic websites using **React.js**, **CSS**, and **Tailwind CSS**.

Jr Software Engineer Intern (Java Developer) — DSD Systems Pvt Ltd

Mar 2025 – Jun 2025

- Assisted in REST API development using Java, Spring Boot, and MySQL.
- Worked on backend feature development, bug fixing, and database optimization.
- Gained experience with Spring Security, JPA/Hibernate, and API documentation.

PROJECTS

Logistics Platform (Porter-like App) | Java, Spring Boot, Spring Security, PostgreSQL, PostGIS, Redis

June 2025 – Present

- Developed and delivered a Porter-like logistics platform for a **Client**.
- Built a **Redis-based** nearby driver **Broadcast system** with PostgreSQL fallback for improved reliability.
- Deployed** and managed the Spring Boot application on a **Linux VPS** using PostgreSQL, Redis, and systemd.
- Reduced database reads and writes by over **90%** by handling high-frequency driver location updates through **Redis**.
- Integrated **Google Routes API** for route optimisation, distance, and estimated travel time between pickup and drop locations.
- Integrated **Razorpay** to enable secure driver wallet recharge and wallet transaction management.

Salon Platform (SaaS) | Spring Boot, Spring Security, JWT, JPA, PostgreSQL, PostGIS, Next.js

- Developed and delivered a Multi-tenant **SaaS** salon management platform Using Spring Boot.
- Designed and implemented REST APIs for multi-store management, **staff management**, **booking**, and **advance booking**.
- Implemented **JWT-based** authentication and Role-Based Access Control (**RBAC**) using Spring Security.
- Developed staff commission, appointment management, and business workflows using Spring Boot and JPA.
- Utilized **PostgreSQL** and **PostGIS** for efficient distance calculations and location-based operations.

EDUCATION

MCA – Computer Science | Delhi Skill and Entrepreneurship University

2022 – 2024

BCA – Computer Science | Institute of Technology and Science

2019 – 2022
