

TANUJ KASHYAP

Java Backend Developer

tanujkashyap913@gmail.com | +91-7678497053 | linkedin.com/in/tanuj-kashyap-909934275 | https://portfolio-seven-dun-14.vercel.app/

PROFESSIONAL SUMMARY

Java Backend Developer with 1 year of professional experience, specializing in scalable REST APIs and Microservices using Spring Boot. Proficient in JWT-based security, Redis caching, MySQL optimization, and clean layered architecture. Adept at building secure, maintainable, and production-grade backend systems with a strong focus on performance and scalability.

TECHNICAL SKILLS

Technical Skills: Java, Spring Boot, Spring MVC, Spring Security, JPA / Hibernate, REST APIs, JWT, HTML, CSS, JavaScript, React.js

Database: MySQL, SQL Query Optimization, Schema Design, JPA (Hibernate ORM)

Tools: Git, GitHub, Bitbucket, Maven, Postman, Swagger / OpenAPI, MySQL Workbench, Redis

PROFESSIONAL EXPERIENCE

Jr Software Engineer (Java Developer) — DSD Systems Pvt Ltd

Jul 2025 – May 2026

Noida, India

- Designed and developed multiple production-grade REST APIs using Java and Spring Boot, supporting core business workflows across various modules.
- Implemented Microservices Architecture, decomposing monolithic logic into independent, loosely coupled services for better scalability and maintainability.
- Optimized complex MySQL queries and database schemas, significantly improving API response times and overall backend throughput.
- Integrated Redis caching on high-frequency data endpoints, reducing redundant database hits and improving system performance under load.
- Implemented JWT-based authentication and role-based access control using Spring Security, securing all critical API endpoints.
- Built and maintained API documentation using Swagger/OpenAPI, enabling seamless onboarding and frontend-backend collaboration.
- Worked closely with frontend developers to define and refine API contracts, ensuring consistent and reliable data flow across the application.

Jr Software Engineer Intern (Java Developer) — DSD Systems Pvt Ltd

Mar 2025 – Jun 2025

Noida, India

- Assisted in REST API development using Java, Spring Boot, and MySQL.
- Worked on backend feature development, bug fixing, and database optimization.
- Gained experience with Spring Security, JPA/Hibernate, and API documentation.

PROJECTS

On-Demand Logistics Platform (Porter-like App) | Java, Spring Boot, Spring Security, PostgreSQL, PostGIS, Redis

- Developed the backend of an on-demand logistics platform supporting rider, driver, vehicle, booking, trip, wallet, and document management workflows.
- Built secure REST APIs using Spring Boot and Spring Security with JWT-based Authentication and Role-Based Access Control (RBAC).
- Leveraged PostgreSQL and PostGIS for geospatial operations including nearby driver search, distance calculations, and location-based services.
- Designed a scalable architecture with Redis-based real-time driver location tracking, reducing frequent database write operations by up to 80–90% and enabling faster location updates for active drivers.

EDUCATION

MCA – Computer Science | Delhi Skill and Entrepreneurship University

2022 – 2024

BCA – Computer Science | Institute of Technology and Science

2019 – 2022

CERTIFICATION

Java Developer Training — Ducat Institute | Core Java, Spring Boot, Hibernate, REST API Development
